WORK EXPERIENCE

KBR, Software Development Intern, Chantilly, VA

May - August 2024

- ❖ Collaborated with a team to develop a digitally engineered space system testing workflow
- ❖ Leveraged Kubernetes to orchestrate application containers and databases
- ❖ Contributed to an Angular frontend application to intuitively display data using JavaScript libraries
- ❖ Set up a MySQL database for querying testing data

Outlier AI, AI Trainer, Remote

December 2023 - Present

- ❖ Solved intricate programming problems and crafted responses to coding-related prompts for training large language models
- ❖ Provided in-depth analysis of AI generated code

Trinity On The Corner, Bartender, Charlottesville, VA

May 2022 - Present

- ❖ Cooperated with a team of bouncers to monitor premises to prevent infractions of rules, theft, and violence
- ❖ Assisted customers and took their food and drink orders
- ❖ Showed willingness to work demanding shifts during late nights, double shifts, and weekends

RELEVANT PROJECTS

Intersections, Angular App

Summer 2024

- ❖ An original daily puzzle game in the style of New York Times' Wordle and Connections

BestBet, Full Stack PHP and JS Web App

Spring 2024

- ❖ A fictional sports betting application where users can compete with friends

Lost & Found, Google Maps Django App

Fall 2023

- ❖ Collaborated with a group of 5 to design and implement a web application that helps students locate lost items
- ❖ Utilized Scrum to remain constantly iterating and sharing feedback

The Niche Index, Spotify React App

Summer 2023

- ❖ Retrieves user's Spotify data to calculate an overall "niche index" that represents the obscurity of the user's music taste

EXTRACURRICULAR ACTIVITIES

Project Code, Member

Fall 2023

- ❖ Joined a team to create a mobile app that helps UVA students avoid long waits at bars and restaurants

Sigma Chi Fraternity, House Manager

Winter 2023- Present

SKILLS

Coding Languages: Java, Python, C, Javascript, Typescript, CSS/HTML, SQL, Perl, PHP, SASS/SCSS
